GREETING CARDS

Send your friends and family these holiday themed greeting cards and kick the season off right!

DIRECTIONS:

1. Print out the greeting card. Use the heaviest paper your printer can take. If you have a color printer, great! If not, color in the card with markers or crayons after you print them!

2. With printed side facing up, fold the card in half lengthwise, so printed side remains facing out.

3. Next, fold in half widthwise, so interior of card is on the inside and front of card is facing you.

4. Add your own special message on the inside.

5. Deliver to your lucky friend or family member!

ONLY IN THEATRES CHRISTMAS 2006

Charlotte's Web

Felicitations!

That's just a fancy way of saying...
